Wood-Knit-Wallpaper-Wallhooks-Music-Mobile-Print

Time to explore new fields! After 12 years of designing dolls with great pleasure it is time to go on an adventure and add some long-wished-for items to our esthex-world!

Our search for new materials lead us to Portugal for a 100% organic knit collection of forrest blankets in mustard and mint colours and a grey-blue or black freddy fish blanket.

We fell in love with the wood-options they have in amsterdam and designed wooden musicboxes, a whale mobile and wooden hooks to decorate your room and hang your cutest outfit of the day!

In the UK we had our fabrics printed and made cushions, a printed musicbox of harry hedgehog and panda pomme and a playmat of the forrest for harry to live in!

In Thailand we treasure their craftsmanship in making dolls as they have proven over the last 12 years and added two XL dolls, Philip frog and very cuddly panda bear Pomme wearing a jacket with green buttons.

Pomme insisted to be a backpack too to accompany you to school!

As we only just started to explore please stay tuned this year for exciting new projects :)
